All Tech Electronics, Inc.

Press Release

All Tech Electronics achieves AS9120 &
ISO 9001:2008 Certifications.

Strategic decision to improve efficiencies of Quality Management
System seeks to assure complete customer satisfaction.

Elmsford, NY May 5, 2009: All Tech's Management team, with a continued commitment to the Aerospace market, today announced that it has officially received ISO 9001:2008 and AS9120 certification. This certification for its quality management system is an aerospace quality standard that will enable the company to conform to the global standard adopted by the aerospace industry. This certification also confirms that All Techs' quality management systems meet the highest standards for the Aerospace and Defense industries.

About All Tech

All Tech Electronics is an SBA certified small disadvantaged business, specializing in the franchised distribution of mil-spec and hi-rel semiconductors. We carry franchised products with full certification and traceability from our extensive multi million dollar inventory. Particular strengths are in the MIL-PRF-19500 product families covering JAN, JANTX and JANTXV level products. All Tech also carries a comprehensive military memory and integrated circuit product offering complemented by a wide ranging COTS and IPEMS portfolio of products.
