

### What You Get:

An AS9120 & ISO 9001:2008 Certified SDB

Providing services to the following standards:

MIL-PRF-38534 & MIL-PRF-38535 - For solder coverage;

GEIA-STD-0006 - Requirements for robotic solder finish on Electronic Components; IPC/ANSI J-STD-001 - For Trim and Forming and Hot Solder Dip; IPC/ANSI J-STD-002 - For Solderability Test; ANSI STANDARD EIA-481 - For Tape & Reeling

### Products and Services

- Diodes
- Transistors
- Hi Rel Memory
- Linear IC's
- Connectors
- RAD Hard Devices
- RAD Tolerant Devices
- Custom Device
- Packaging
- COTS / PEMS
- DMS / EOL
- Robot Controlled Tin Dipping
- Device Testing
- Programming
- BGA Reballing
- Die Banking
- PCB Rework
- Package Trim & Form

Since our inception over 19 years ago, All Tech has become the most recognized SDB Distributor serving the defense and aerospace community.

We have established ourselves as a franchised stocking distributor and DMS Obsolescence solutions provider, specializing in military grade and high reliability semiconductor products.

Our goal has always been to provide our customers with an SDB business partner that doesn't require them to compromise quality or price.

Contact us for our Franchised Products line card.

## all technology

serving the component and value added needs of the defense and aerospace customer

your certified small disadvantaged business partner

# Solutions that work for your business.

## COMMITTED TO EXCELLENCE

" Since 1993; A franchised stocking distributor and DMS Obsolescence solutions provider, specializing in military grade and high reliability semiconductor products."

### SUPPORT SOLUTIONS

- FRANCHISED DISTRIBUTION
- VALUE ADDED SERVICES
- CUSTOM PACKAGING.
- CUSTOMER PROGRAMS
- PROGRAM MANAGEMENT

We have always provided semiconductor products and solutions for the customer who understands quality and value based on solutions and services we can provide. With that in mind and in conjunction with our strategic business partners, we have now developed a Value Added Services program to address many of your component modification and testing needs.

## flexible solutions for your business needs

### Solder Exchange / Solder Dip

Automated 6 axis robotic control In line with GEIA-STD-0006

### BGA Modifications

An established process for bringing back BGA components to their original specification.

### Trim and Form

Trim and Form straight leads for surface mount or through-hole components

### Component Modification

Leaded Components Realigned (Variety of Packages) ; Solderability Testing; Particle Impact Noise Detection (PIND); Fine and Gross Leak Testing; Lead Integrity Testing; Tensile Testing (Bond/Lead Pull); Tape and Reel

### Semiconductor Services

All Tech also offers :

**Upscreened Components** - "up screening" components to meet your requirements.. We will process lot sizes from small to high production volumes.

**Value added processing and supply of Semiconductor Bare Die.**

**Die Banking solutions.**

An All Tech sales rep is ready to discuss your requirements!

### Bill of Material Analysis

**One Click Away from Decision Support Solutions**

SMART takes Obsolescence Management to a new level by incorporating all of the key ingredients required for program supportability. Complete life cycle management and software processes meet your specific program requirements.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?
